PROFESSIONAL SUMMARY

Software Developer and IT professional with hands-on experience building full-stack applications, REST APIs, console applications, responsive web interfaces, automated tests, and data-analysis projects. Retired U.S. Army veteran bringing leadership, troubleshooting, technical documentation, training, and problem-solving experience to software development. Currently pursuing a Computer Information Technology degree at Jefferson Community & Technical College.

TECHNICAL SKILLS

Languages: C#, JavaScript, Python, HTML, CSS

Frameworks & Technologies: .NET, ASP.NET Core, React, Vite, Node.js, Express.js, Entity Framework Core

APIs & Data: REST APIs, JSON, ASP.NET Core Minimal APIs, HttpClient, Fetch API, SQLite, pandas

Testing & Tools: xUnit, WebApplicationFactory, Git, GitHub, GitHub Copilot, VS Code, Git Bash, npm, .NET CLI

Concepts: Object-Oriented Programming, CRUD, async/await, API integration, automated testing, algorithms and data structures

SELECTED PROJECTS

Valor Vault | *React, Vite, ASP.NET Core, EF Core, SQLite*

- Full-stack veteran resource hub that organizes trusted support resources for veterans and families.

Theo's Food Trailer Menu | *C#, ASP.NET Core, JavaScript, xUnit*

- Full-stack menu application with a Minimal API, RESTful CRUD operations, dynamic JavaScript frontend, HttpClient console client, and integration tests.

Raspberry Pi API | *Node.js, Express, JavaScript, REST*

- REST API organized with routes, controllers, and services to simulate GPIO/LED device control and JSON responses.

SweetlyMade | *C#, .NET, ASP.NET Core Razor Pages, xUnit*

- Multi-project .NET solution with a console application, Razor Pages web application, service layer, and automated tests.

Wine Reviews Data Analysis | *Python, pandas, Matplotlib*

- Data-analysis project that cleans, aggregates, analyzes, and visualizes wine-review data by country.

PROFESSIONAL BACKGROUND

Systems Engineer Apprentice | *El Toro IP Targeting*

- Applied technical troubleshooting, documentation, communication, and systems-focused problem solving in a professional technology environment.

U.S. Army | *Retired Veteran*

- Developed leadership, instruction, teamwork, technical-process, documentation, and problem-solving experience through military service.

EDUCATION & PROFESSIONAL DEVELOPMENT

Computer Information Technology | Jefferson Community & Technical College - In progress

Code:You Web Development Pathway | Completed

Code:You Software Development Pathway (C#/I.NET) | Completed

Certified AI PMO Practitioner (CAPMO) | KEP Training

CURRENT FOCUS

C#/I.NET development, ASP.NET Core, React, REST API development, Microsoft Azure, cloud technologies, AI-assisted development, automation, and data analysis.
